Who needs cover?

When moving abroad for work, to be with family or simply to make a fresh start, there can be several significant challenges to overcome; cultural differences, a new language to learn or an unfamiliar currency to contend with. No matter what your list of priorities are, one thing that should not be overlooked is the health and wellbeing of you and your family.

A key element to a stress-free life is the knowledge that you and your family are protected and have an insurance partner you can call on should you require medical treatment. There is certainly no comfort in discovering that you are without access to potentially lifesaving medical treatment when you have fallen ill, or are facing the burden of a large treatment bill without any protection in place.

This is where APRIL International can help. Our private medical insurance plans can provide you and your family the protection you need when living or working abroad. We consistently deliver the best international health cover for your needs, no matter how complex the situation.

Healthcare costs abroad

No matter where you are around the globe, it's reassuring to be covered by APRIL International. The costs of receiving the appropriate level of care around the world might be considerably more than you are anticipating should the unexpected happen.

UK: chemotherapy and radiotherapy can prove extremely expensive, especially in London. We covered the costs in full for one patient who had colon cancer that spread to their lungs.

GBP 144,000

approx. \$226,000/€202,000

Israel: with the right plan from APRIL International UK, you would be covered for treatment in this country, where a specialist consultation could cost you over ILS 500.

ILS 500

approx. £110/\$140/€132

Germany: it's all too easy to run up a big bill for conditions like hypertension, especially as it's likely to require diagnostic tests followed by treatment and monitoring.

EUR 2,200

approx. £1,850/\$2,300

Jordan: a customer was experiencing respiratory symptoms and attended a consultation where he was diagnosed with Hyperactive Airway Disease.

JOD 524

approx. £590/\$740/€700

Hong Kong: our plans offer generous maternity benefits which should prove useful if, for example, you have complicated pregnancy and childbirth or need an emergency caesarean.

HKD 197,650

approx. £18,255/\$25,414/€21,458

The medical costs detailed refer to cases handled by our Claims Department. These have been provided for information purposes only and have no contractual value. The exchange rates applied were current at the time treatment was received.

THE HEALTHCARE PROBLEM

Diagnosed with Hepatitis C following a routine check-up in Jordan.

Age: 62

Location: Jordan and Germany

THE TREATMENT

The client struggled to manage the condition with medication, while her health gradually deteriorated. Her doctors suggested to get treated in Germany with a new "wonder drug" called Interferon – which involved undergoing clinical trials.

She travelled to Germany to begin tests to see if she would be a suitable candidate for the new drug. These costs were passed to April International UK's assistance provider for approval. At the time, because the drug was still in clinical trials and not approved for public use, the invoices were initially declined. However, we continued to support the client, and shortly afterwards the drug passed its clinical trials and was approved.

This opened the way for a claim and the total treatment costs were estimated at just over £98,000. During the summer of 2014, a course of Olysio and Sovaldi was prescribed, which added to the rapidly rising costs.

Around 12 weeks after the start of the treatment, a wide range of pathology and diagnostic tests were carried out to see how effective the drugs had been. The results were very encouraging, indicating that the course of medication had been totally successful in eradicating the Hepatitis C.

To date, the cost of treatment stands at just £90,000, but with the client now having appeared to make a full recovery, the treatment plan for the future is simply to carry out regular observations and precautionary diagnostic tests.

"It was interesting to go through a claim experience with APRIL International Care, which gives me a better understanding of how the entire process works. **Very efficient handling and follow up**, and very fast settlement."

"I have heard of the bad press insurance companies get when the time comes to actually make a claim. I have been insured with you for about 6 years. Once, I had to claim because I came down with Dengue Fever – and this time it's my teeth. And each time **it has been a pleasure and a reassurance.**"

"I would like to emphasise how pleased I was with your service and **will definitely be recommending and praising your company** if I am ever asked to suggest an international health insurance provider."

"I would like to thank you and the assistance company for the great support. **Everything went smoothly** and when I came to the hospital for the operation they already had your guarantee in hand."

Request pre-authorisation (app only)

Pre-authorisation is required for planned medical care, and you can easily request it through the app.

Once approved, we'll settle the payment directly with the hospital, so you won't have to worry about paying upfront and seeking reimbursement.

Easily add or update your bank details to ensure smooth processing of your reimbursement claims. Once updated, you can select this account in the app before submitting a claim. Without this information, claims cannot be submitted or processed.

Easy Pay Card

This card is a new digital payment solution that enables you to pay for your pre-authorised medical care above £500/\$500/€500, wherever you might be, without incurring any personal costs and seeking reimbursement.

HOW DOES IT WORK?

You can request the Easy Pay card by emailing EasyPayCard@april-international.co.uk **at least 3 working days before your pre-planned treatment.**

You will need to include a medical report or letter from your treating doctor with a summary of the diagnosis/symptoms, recommended treatment or medical procedure, and documented evidence of the estimated costs.

WHAT HAPPENS NEXT?

We will review your claim and once authorised, immediately pre-load the card with the amount needed to pay for your treatment.

You will then receive an email with a link to create your account and access the card. You can add this card to your digital wallet on your mobile phone and use it like any other standard virtual payment card.

Once you have paid for your treatment, all you have to do is send your invoices to us, together with any other supporting documents, **within 24 hours**. You can upload your documents in your APRIL Easy Pay account.

Healix can arrange a medical evacuation by a scheduled airline or air ambulance to safely transport you to a more suitable medical facility.

The nature of the medical condition and your location are often the key factors when arranging evacuation transport and the type of medical escort required. Healix's medical teams are experts in the medical, regulatory and logistical processes involved, tailoring each evacuation to ensure it is managed in the most appropriate and cost-effective way possible.

YOU CHOOSE WHERE AND WHO

We understand that you may have a preference as to which hospital you are admitted to, or which doctor you seek treatment from after an initial diagnosis. Whilst we're unable to meet the travel costs, our plans provide the flexibility for you to choose where and who you are treated by.

This may even include receiving treatment in your home country, providing it is within your chosen area of cover. Ultimately, we want to make sure you have access to everything you need to overcome any obstacles a medical condition can present.
