

## Table of benefits

### 1. Medical expenses and basic repatriation assistance benefits schedule

Some important information before going any further:

#### Important

Medical expenses are covered within the limits of **Actual costs and the Reasonable and Customary costs charged in the country where the treatment is provided**. To maintain sustainable levels of cover and premiums, we closely monitor the rates charged by healthcare professionals and ensure they are in line with typical pricing in that area.

We provide you with a **network of healthcare professionals** who charge *Reasonable and Customary costs*. Please contact our team for more information about the APRIL International's Network.

**All treatments over €/US\$2,000 are subject to Pre-approval.** Please send us your request at least 5 days before the planned treatment date. Failure to comply with these conditions will result in a penalty which will be applied to your reimbursement.

In case of hospitalisation for more than 24 hours or day hospitalisation, **you benefit from a direct billing service, subject to Pre-approval.** Please note that this service is only **available to Members insured from the 1st €/US\$ and as a top-up to the CFE**. It is not available if you are covered as a top-up to the French Social Security (or another basic scheme).

#### What levels of cover?

The cover below corresponds to 100% reimbursement of actual costs. Please note that if you choose **the option of reimbursement at 80% or 90% of actual costs**, the reimbursement rates for Healthcare, Optical/Dental Care and Maternity are adjusted accordingly.

If you have taken out **additional CFE/SS/CNS cover**, the limits shown in the table of benefits below include the part covered by your compulsory scheme.

#### What is outpatient care?

Outpatient surgery is defined as "day hospitalisation" in a healthcare facility for a period of less than 12 hours. Outpatient care, also known as ambulatory care, refers to all care provided by healthcare professionals without the need for hospitalisation or overnight accommodation in a healthcare facility.

#### What is cover for COVID-19?

COVID-19 is covered under the same conditions as any other disease, with no special restrictions (within the overall annual limit of the selected plan). All care and treatment will be covered as set out in the Table of Benefits.

#### Hospitalisation and basic Repatriation assistance package

In the Hospitalisation and basic Repatriation assistance package, outpatient care (including dental care and prostheses – excluding dentures and dental implants) is also covered **in case of accident** and on presentation of a medical certificate, **up to €/US\$ 75/treatment or procedure and €/US\$1,500/year/insured**.

\* All hospitalisation is subject to Pre-approval. **A penalty of 50%** will be applied if this procedure is not followed prior to hospitalisation.

\*\* Subject to Pre-approval.

\*\*\* The waiting period does not apply if you had an equivalent or higher level of cover that was cancelled less than one month prior. Proof of this previous insurance and the Certificate of cancellation from that plan must be provided.

**The amounts payable in respect of the death benefit are exempt from inheritance tax in France, subject to the legislation in force.**

#### Definition

› **Total and irreversible loss of autonomy:** the insured is deemed to be totally and permanently medically unfit for any gainful employment and requires the assistance of a third party to carry out basic daily tasks.

### 4. Income protection during periods of sick leave (optional)

**The daily benefit and disability pension provide financial protection against the loss of earnings due to illness or accident. This benefit ensures that a portion of your salary is paid for a fixed period.**

You can only opt for this benefit if you have already selected a death lump sum.

You are free to choose the level of daily benefit (between €/\$20 and €/\$500), provided that:

- › The total daily benefit paid over one month does not exceed 100% of your monthly net salary (limited to 70% of your monthly net income if you started or took over a business within the last year). If you have CFE or French Social Security top-up cover, the combined total of daily benefits from the basic scheme and the My Health International plan cannot exceed 100% of your monthly net salary (limited to 70% of your monthly net income if you started or took over a business within the last year).
- › The amount of the daily benefit depends on the amount of the selected death lump sum: for a daily benefit of €/\$20, the selected lump sum must be at least €/\$20,000. The medical formalities required are those specified for the level of death lump sum selected.

You must be in paid employment to benefit from income protection cover.

## Definitions

### > Daily benefit:

Daily benefits may be paid from either the 31<sup>st</sup> or the 61<sup>st</sup> day, depending on the option selected, and for a maximum of 3 years. The number of days on which the benefit is payable per month is 30. By selecting a daily benefit, you are no longer required to pay the premium from the 31<sup>st</sup> or the 61<sup>st</sup> day. This means that, if you are experiencing financial difficulties due to sick leave from work and are entitled to the daily benefit, you will receive free social protection cover. This benefit ends when you reach the age of 65.

### > Disability pension:

A disability pension offers protection if you are disabled due to illness or as the result of an accident. When the daily benefit has been in payment for a maximum of 3 years, it is converted to an annual pension. The annual pension is paid once your condition has stabilised and continues until you reach retirement age, which is 65 at the latest. The amount of the annual pension is proportionate to the degree of disability determined according to the following disability scale (see paragraph 7.5 in the General Conditions).
