How to claim

Seeking treatment?

We understand that seeking treatment can be stressful. By following the process below, we can look after the administration and you can concentrate on getting better.

Check your level of cover

First, check that your plan covers the treatment you are seeking. Your Table of Benefits will confirm what is covered. However, you can always call our Helpline if you have any queries.

Some treatments require our pre-approval

Your Table of Benefits will show which treatments require our pre-approval (via a Treatment Guarantee Form). These are mostly in-patient and high cost treatments. The pre-approval process helps us assess each case, organise everything with the hospital before your arrival and make direct payment of your hospital bill easier, where possible.

Getting in-patient treatment (pre-approval applies)

Download a Treatment Guarantee Form from our website:
www.allianzcare.com/members

Complete the form and send it to us at least **five working days before** treatment.
You can send it by email, fax or post to the address shown on the form.

We contact the hospital to organise payment of your bill directly, where possible.

If it's an emergency:

Get the emergency treatment you need and call us if you need any advice or support.

If you are hospitalised, either you, your physician, one of your dependants or a colleague needs to call our Helpline (**within 48 hours** of the emergency) to inform us of the hospitalisation.

We can take Treatment Guarantee Form details over the phone when you call us.

We can also take Treatment Guarantee Form details over the phone if treatment is taking place within 72 hours. Please note that we may decline your claim if pre-approval is not obtained.

Claiming for your out-patient, dental and other expenses

If your treatment does not require our pre-approval, you can simply pay the bill and claim the expenses from us. In this case, follow these steps:

Receive your medical treatment and pay the medical provider.

Get an invoice from your medical provider. This should state your name, treatment date(s), the diagnosis/medical condition that you received treatment for, the date of onset of symptoms, the nature of the treatment and the fees charged.

Claim back your eligible costs via our MyHealth app or online portal (www.allianzcare.com/en/myhealth.html).

Simply enter a few key details, add your invoice(s) and press 'submit'.

You can also submit your claim by email to claims@allianzworldwidecare.com

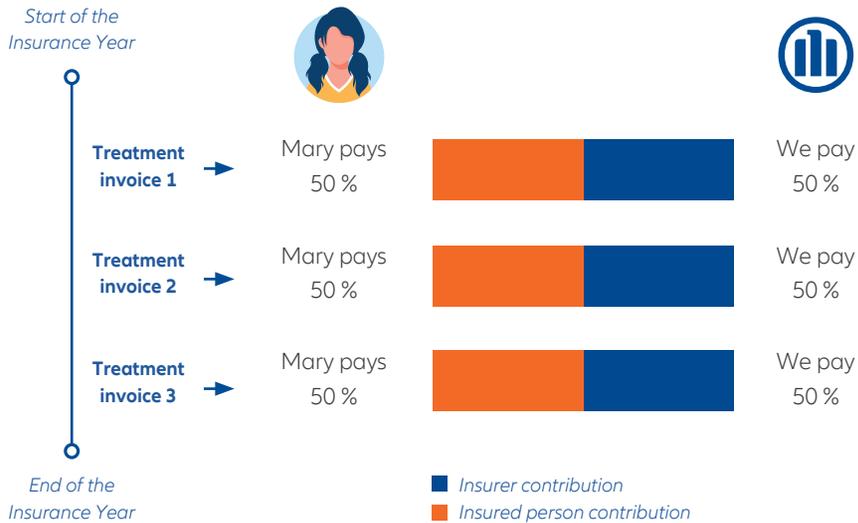

Quick claim processing

Once we have all the information required, we can process and pay a claim within 48 hours. However, we can only do this if you have told us your diagnosis, so please make sure you include this with your claim. Otherwise, we will need to request the details from you or your doctor.

We will email or write to you to let you know when the claim has been processed.

What are co-payments?

A **co-payment** is when you pay a percentage of the medical costs. In the following example, Mary requires several chiropractic treatments throughout the year. Her chiropractic treatment benefit has a 50% co-payment, which means that we will refund 50%. The total amount payable by us may be subject to a maximum plan benefit limit.

What are deductibles?

A **deductible** is a fixed amount you need to pay towards your medical bills per period of cover before we begin to contribute. In the following example, John needs to receive medical treatment throughout the year. His plan includes a CHF500 deductible.

Start of the Insurance Year

Treatment invoice
1 = CHF400

John pays the medical bill in full (CHF400)

We pay CHF0

Treatment invoice
2 = CHF400

John pays CHF100

We pay the remaining CHF300

Treatment invoice
3 = CHF400

John pays CHF0

We pay the medical bill in full (CHF400)

Treatment invoice
4 = CHF400

John pays CHF0

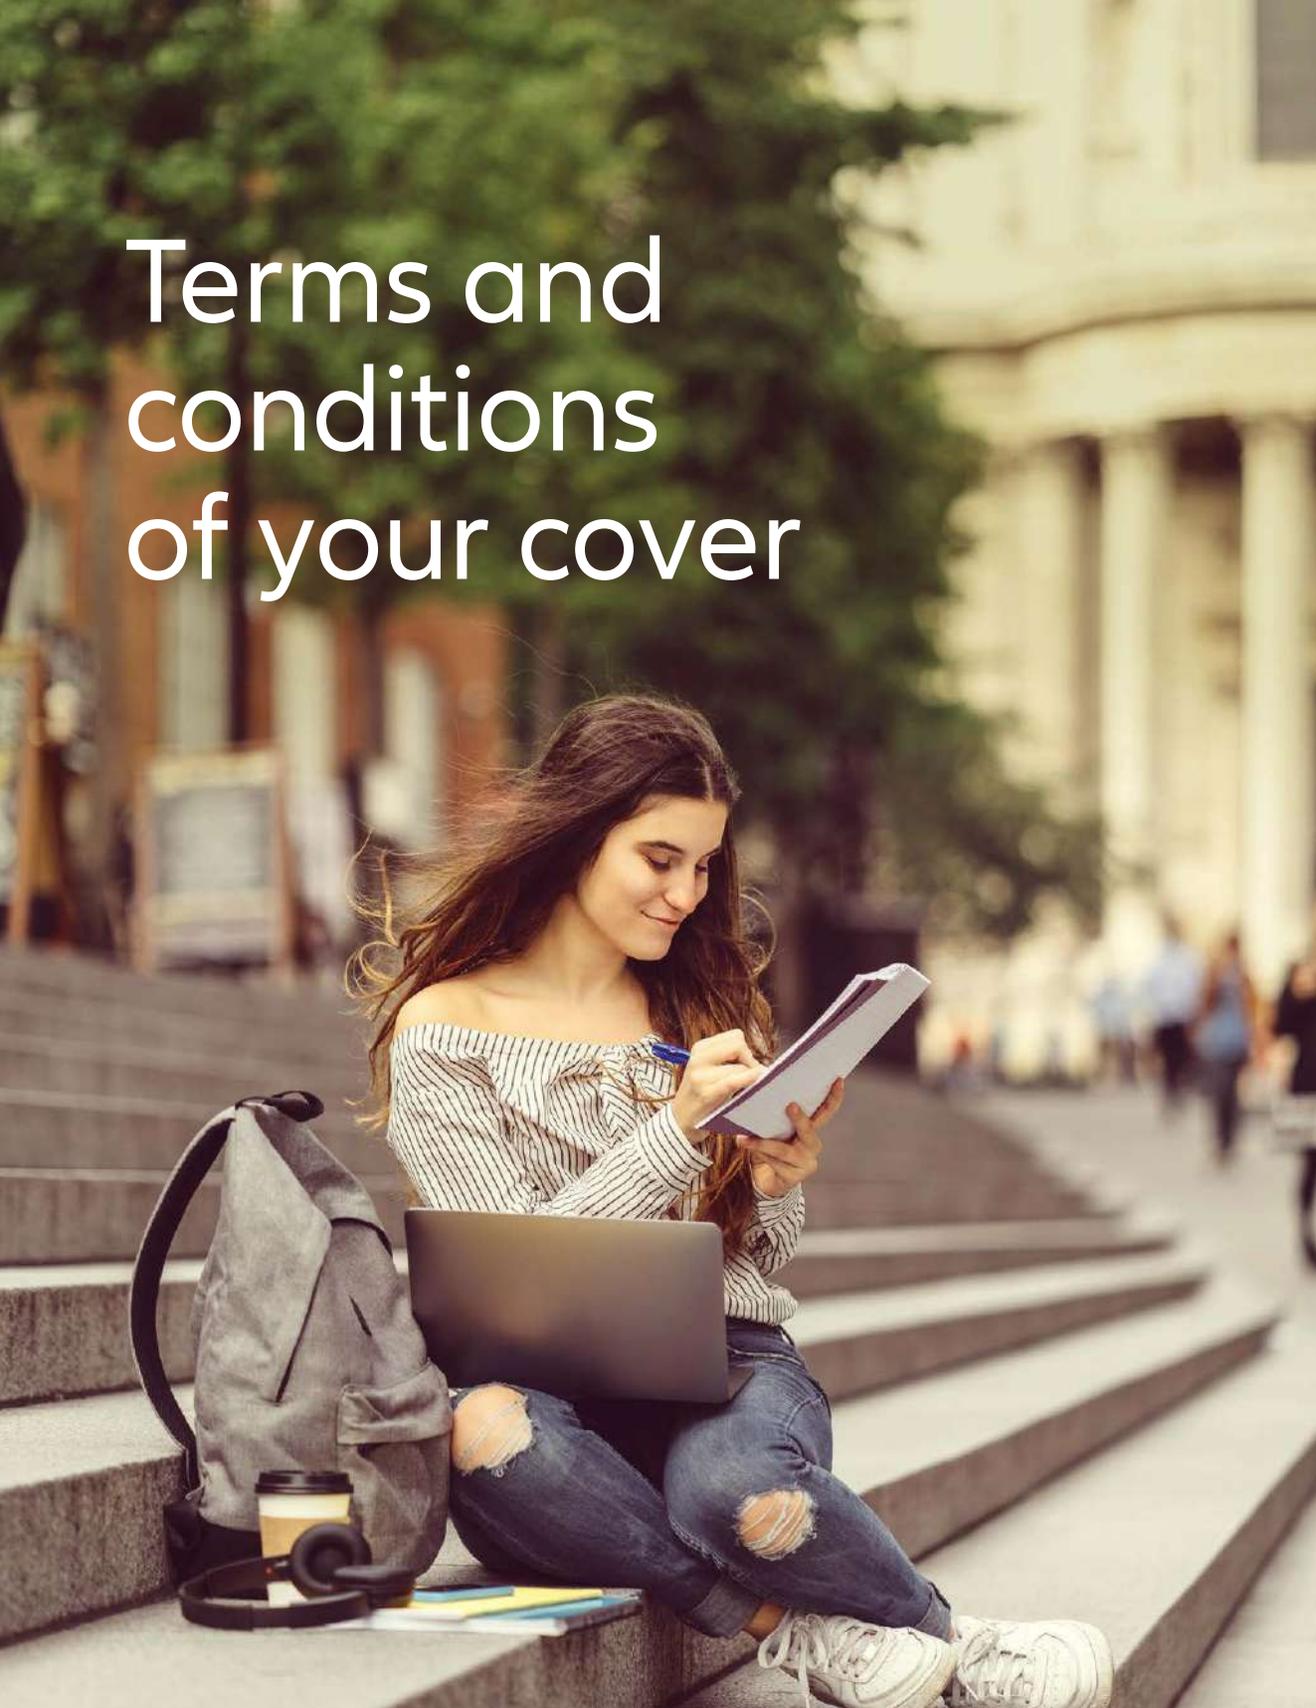

We pay the medical bill in full (CHF400)

End of the Insurance Year

Terms and conditions of your cover

Your cover explained

Your Table of Benefits specifies the plan(s) selected and the associated benefits available to you. You will find further details about our benefits in the "Definitions" section of this guide. Not all of the benefits listed in our "Definitions" section are necessarily covered under your policy, which is why it's important to check which ones are listed in your Table of Benefits. Your cover is subject to our policy definitions, exclusions, benefit limits and any special conditions indicated on the Insurance Policy. If you have any queries about what you are covered for, please don't hesitate to call us.

Benefit Limits

There are two kinds of benefit limits shown in the Table of Benefits. The maximum plan benefit, which applies to certain plans, is the maximum we will pay for all benefits in total, per member, per Insurance Period, under that particular plan. Some benefits also have a specific benefit limit for example "Nursing at home or in a convalescent home". Specific benefit limits may be provided on a "per Insurance Period" basis, a "per lifetime" basis or on a "per event" basis, such as per trip, per visit or per pregnancy. In some instances we will pay a percentage of the costs for the specific benefit e.g. "65% refund, up to CHF1,000". Where a specific benefit limit applies or where the term "Full refund" appears next to certain benefits, the refund is subject to the maximum plan benefit, if one applies to your plan(s). All limits are per member, per Insurance Period, unless otherwise stated in your Table of Benefits.

Please note that if a change is applied to a benefit limit which spans applies to more than one year, at policy renewal, the following will apply:

- All eligible expenses incurred in the first year will be subject to the benefit limit that applies in year one.
- All eligible expenses incurred in the second year will be subject to the updated benefit limit that applies in year two, less the total benefit amount reimbursed in year one.
- In the event that the benefit limit decreases in year two and this updated amount has been reached or exceeded by eligible costs incurred in year one, no additional benefit amount will be payable.

Medical necessity

This policy provides cover for medical treatment, related costs, services and/or supplies that are medically necessary and appropriate to treat a patient's condition because of a disease or accident, in line with the definition on "Medical necessity". We will only pay for medical costs which are fair and reasonable and at the level customarily charged in the specific country and for the treatment provided, in accordance with standard and generally accepted medical procedures. If the prices are higher than what is common locally, we reserve the right to reduce the amount payable by us.

Chronic conditions

Chronic conditions are covered within the limits of your plan(s).

Pre-existing conditions

Pre-existing conditions are covered within the limits of your plan(s).

Co-payments or deductibles

A deductible is an amount which is payable by you and which will be deducted by us from the eligible reimbursable sum, whereas a co-payment is a percentage of the eligible costs incurred, which is payable by you. Some plans may include a maximum co-payment per insured person, per Insurance Period, and if so, the amount you have to pay will be capped at the amount stated in your Table of Benefits. Where applied, co-payments and deductibles are payable per person per Insurance Period (unless indicated otherwise in the Table of Benefits).

Please refer to your Table of Benefits to determine if any co-payments or deductibles apply to benefits within your chosen plans. They may apply to the Core, Out-patient or Dental Plans or indeed, to a combination of plans.

Where you are covered

Your Insurance Policy will confirm your chosen geographical area of cover.

Your Core Plan explained

Only treatment necessary to commence within 24 hours of the emergency event will be covered, when deemed medically necessary by a doctor and carried out by a registered physician. This includes cover for treatment received in a casualty ward or emergency room, following an accident or any sudden beginning or worsening of a severe unforeseen illness, resulting in a medical condition that presents an immediate threat to the insured's health and which requires urgent medical treatment. Cover includes only emergency treatments and does not extend to follow-up treatment, which will have to be covered under the non-emergency benefits of your plan. This benefit does not include treatments which are necessary due to a pregnancy or any other exclusion. To be considered an emergency, the treatment must be received within 24 hours of the emergency event. Please refer to your Table of Benefits to confirm if any benefit limit applies.

Where applicable, you will be covered for emergencies only, which occur during the academic term, personal or internship trips outside of your chosen area of cover (where relevant). Cover is provided for a maximum period of six weeks per trip up to the benefit amount stated in your Table of Benefits. You will not be covered for any curative or follow-up non-emergency treatment, even if deemed unable to travel to a country within your geographical area of cover. If you are moving outside your area of cover for more than six weeks, please contact us.

Not only are you covered in the event of an accident, but you are also covered for the sudden beginning, or worsening, of a severe illness which results in a medical condition that presents an immediate threat to your health. To be considered as emergency treatment, and thus covered under this benefit, please remember that the medical treatment provided by a physician, medical practitioner or specialist should commence within 24 hours of the emergency event.
