# International health insurance: what if it was easy?

As you know, healthcare costs abroad can quickly increase and vary greatly from one country to another. In many cases, the coverage you have in your home country is not valid internationally.

That's why APRIL developed insurance solutions specifically designed to meet the unique challenges and needs you may face while living or travelling abroad.

Designed for travellers, globetrotters, participants in Working Holiday Programmes, and remote workers abroad (for stays ranging from 3 months to 1 year), **MyTravel Cover** provides a reliable replacement to your home country's social security and private health insurance.

# Healthcare costs across the globe

## Depending on the region, healthcare costs are skyrocketing

In some countries, we see a consistent rise in the cost of care at private clinics and hospitals, mainly targeting expatriates. These private facilities often charge unregulated and exorbitant fees, far exceeding those in the public sector. They may also tend to prescribe excessive treatments, unnecessarily extend hospital stays, and recommend non-essential procedures.

To help you navigate this, our medical teams are available to advise you on the best facilities, review your proposed treatments and, if needed, confidentially connect you with renowned medical experts for a second medical opinion.

## Quality of infrastructure varies from country to country

Access to quality medical care can be challenging in certain regions of the world, such as Southeast Asia or Africa. At APRIL International, we have partnered with leading medical facilities in these areas and regularly arrange medical evacuations to more suitable countries when necessary. We ensure you have access to the best possible care, no matter where you are located.

*The displayed costs reflect cases treated by our medical team.  
The exchange rates used were those in effect at the time the care was provided.*

# Examples of reimbursements

## An example of medical costs in **France**

*"Maria is in France for three months as a freelancer. The general practitioner she consults in Lyon prescribes an MRI. Following this radiology exam, she has to pay €150. Her MyTravel Cover plan (Comfort option) covers 100% of actual expenses for this type of treatment. She is therefore reimbursed for the full amount she paid — €150."*

## An example of medical costs in **Australia**

*"Anthony takes a sabbatical to spend eight months in Australia as a volunteer for an association. During a run, he breaks his ankle (which requires hospitalisation, covered by APRIL). A few weeks later, he needs physiotherapy sessions (\$125 per session), which will be fully reimbursed (\$125 per session) thanks to his MyTravel Cover plan (Comfort option)."*

## An example of medical costs in **Canada**

*"Ilyas obtained his Working Holiday Visa in Montreal, Canada, for 24 months. A few weeks after his arrival, he rushes to the dentist to treat a severe toothache. ## An example of emergency hospitalisation in **Indonesia**

*"After being bitten by a mosquito carrying dengue, Mathieu must be hospitalised urgently. Two months into his road trip in Indonesia, he is taken to the nearest hospital. The cost of the hospitalisation amounts to USD 10,000. Thanks to his MyTravel Cover plan (Emergency option), he is fully covered and has no out-of-pocket expenses for this stay."*
